The Four Paged Web Design “Scenic Views”

GitHub URL (https://taniawinters.github.io/ScenicViews/)

This website contains:

1. Index page
2. About page
3. Information page
4. Gallery page

Consistency throughout the website:

1. Navigation – Nav CSS >
2. Footer
3. Scenic Views Logo
4. Copyright 2021
5. CSS validation in footer image

```
nav ul
{
    float: right;
    list-style: none;
    margin: 25px;

}

nav ul li
{
    display:  inline-block;
}

nav ul li a
{
    text-decoration: none;
    color:#fff;
    padding: 5px 20px;
    border: 1px solid #fff;
}
nav ul li a:hover
{
    background-color:#fff;
    color: #000;
    transition: 0.6s ease;
}
```

Navigation is set for all pages on the website, which is in the <header> tag with <img> tag for Logo and Background image in CSS, the same navigation is displayed in the <footer> tag. The navigation has a hover effect of a background colour white once you hover over each <ul> tag that contains <li> with <a> tag that contains the link to each page.

Validation

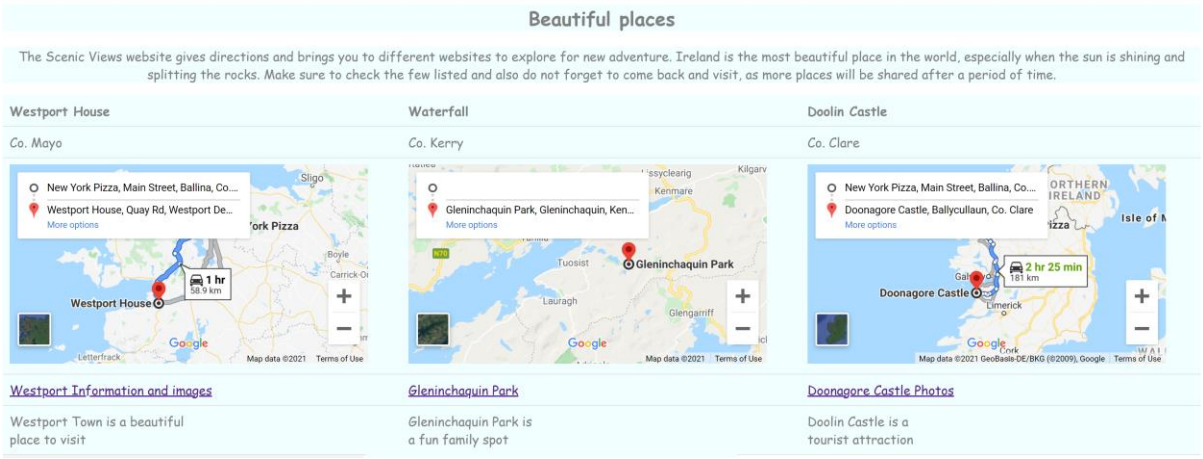
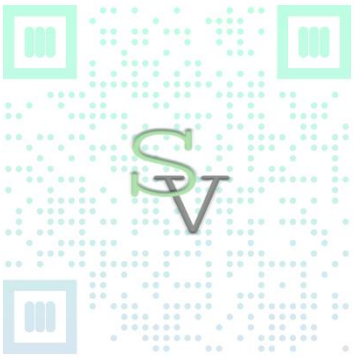
All pages have HTML/CSS validation, the CSS validation was all correct, to be able to use the CSS validator image. The HTML validation had some warnings, on one page where <iframe> tags where used the validation showed two errors, so was unable to use the HTML validation image.

Home page (index)



In the above image is a table format. This includes text, google maps and inks inside the <table> tag.

- The above image shown, includes <aside>, <article> and a second <aside> tag. The <aside> has context, links and COVID 19 image to advise people to continue to follow the guidelines, that the Government/HSE has put in place to keep everyone safe.
- The <article> tag contains an ordered list tag, with links to external websites and the third one, just lets you know you can snap and share the QR code to your friends and family.
- The images in the second <aside> tag contain QR code, snap image and share image.

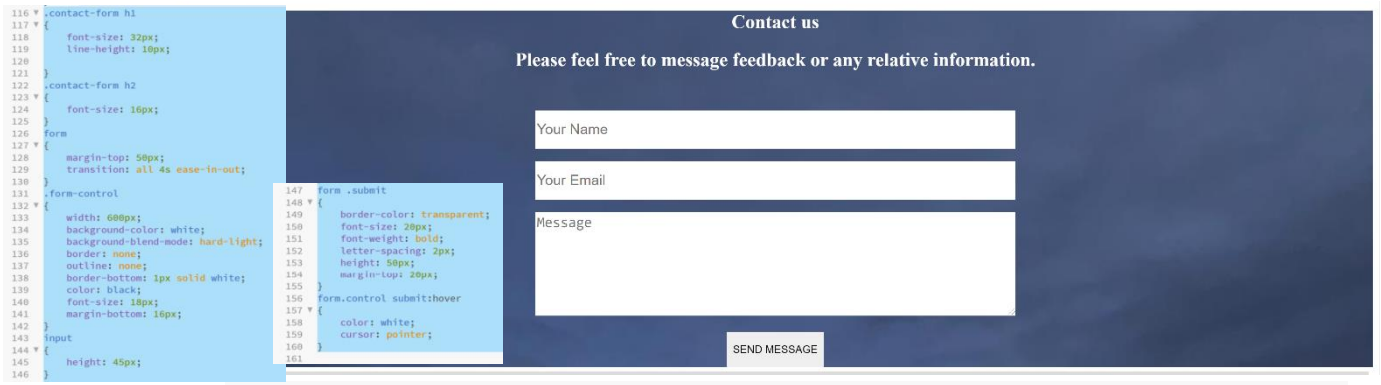


The QR code was created on https://www.qrcode-monkey.com/

This image (png) is from https://pngtree.com/ , which the site membership package is a paid for lifetime package. Which contain PSD, PNG, EPS images etc…

This share image (png) is also downloaded from pngtree.

About page



```
<section class="Contact-Form">
    <h1 style="color: #fff;">Contact us</h1>
    <h2 style="color: white;">  Please feel free to message feedback or any relative information.</h2>
  <form id="contact-form2" method="post" action="http://foo.com">
  <input name="name" type="text" class="form-control" placeholder="Your Name" required><br>

Gallery Page

The gallery contains a slider which has @keyframes to slide the images left in CSS, the HTML tags used to create this is a <section> which has inside a <figure> tag is used.

```css
@keyframes slideshow
{
    0%{left: 0;}
    20%{left: 0%;}
    25%{left: -100%;}
    100%{left: -100%;}
    50%{left: -200%;}
    70%{left: -200%;}
    75%{left: -300%;}
    95%{left: -300%;}
    100%{left: -400%;}
    100%{left: -400%;}
}

#slider
{
    overflow: hidden;
}

#slider figure img
{
    width: 20%;
    float: left;
}
#slider figure
{
    position: relative;
    width: 500%;
    margin: 0;
    left: 0;
    text-align: left;
    font-size: 0;
    animation: 20s slideshow infinite;

}
* {
  box-sizing: border-box;
}
```

CSS includes animation to create a 20s infinite slideshow, this runs continuously on the page.

```html
<section id="slider">

Web design Proposed.

The website was created in promoting Scenic Views, to boost exercise and help mental health without stating these facts.

The audience this site is available to is all-age group's young to old, can be couples, family, friends or even an adventure with college/work buddies.

This website has images taken because it is nice to share beautiful images which inspires individuals, who are photographers or anybody who loves to snap a nice photo whatever the angle is.

In the contact form you can contact the page with suggestions of a stunning view you would like posted on the webpage.

The presentation of proposal before the website was coded.

Conclusion

The Scenic Views website shows consistency throughout the webpages. The pages contain different html tags to create different context throughout the website. The website was created in ordered to share stunning views with other individuals and inspire in many ways without sharing it on the site.
